Afterward

Hello there, and it sure has been a while. Yoban here!

When I started drawing this work, I had originally planned to exclude any scenes that would make it R-18, but my instincts kicked in halfway, and so it turned out the way you've just seen. I can't really say I regret that, though!

The one thing I do regret, is that the quality of this work didn't quite come out how I would've liked it to. I'll try to put more effort into my next one. That being said, I feel like I said something similar in the afterward for my last copy book...

Well then, I don't really have anything else I'd like to add in particular, so I'll end here.
Thank you so much for taking the time to enjoy my latest work!
